

Shri Srivatsa Krishna, IAS

Secretary to Government

Department of Information Technology, Biotechnology and Science & Technology and
DPAR (e-Governance), Government of Karnataka

Profile:

Srivatsa Krishna, topped India (1 out of about 500,000 candidates) in the National Civil Services Examination in 1994, was awarded President of India's Gold Medal and joined the Indian Administrative Service (IAS), India's top management government cadre. He was part of the leadership team, which pioneered E---governance in India, and created one of Asia's largest IT and investment clusters, Cyberabad, which has been globally acclaimed by Businessweek, The Economist, and TIME as a marvel of Modern India. This team was instrumental in bringing in several Fortune 500 companies such as Microsoft (for their only off---shore Software Development Center outside Seattle, US), HSBC, General Electric, Google, IBM, and Oracle etc. to invest in Hyderabad, valued today at \$5.2b by a recent Goldman Sachs BRICS report.

He went on to become the first serving IAS officer to complete the MBA Program at Harvard Business School and is an alumnus of Oxford University as well. While at Harvard he co---authored a research study on clusters, competitiveness and economic development in India with University Professor Michael Porter and on engendering disruptive economic growth in emerging markets with the global innovation guru Professor. Clayton Christensen.

World Economic Forum at Davos honored him as one of its Top 100 Global Leaders for Tomorrow in Davos in 2003. Thinkers 50, has recognized him as one of top 50 thinkers from India in 2013.

In 2008---09 he led a study commissioned by the highest levels of the Government of India on PPPs and private equity regulation and policy for the country on behalf of the International Finance Corporation (IFC), The World Bank Group.

Srivatsa served in the Strategy, Finance and Risk Management Vice Presidency at the World Bank in Washington D.C where he was co---heading investing the World Bank's annual internal fund of about \$2b and managed its capital allocation portfolio in various assets in different countries around the world (Assets Under Management valued at over \$100 billion in 2007---08). Investments made globally predominantly in customer facing industries, healthcare, financial services, IT services and BPO, infrastructure and energy, and telecom. He has also worked on conceptualizing, investing and executing several infrastructure projects in about 18 different countries around the world, including the world's largest Special Economic Zone (SEZ) in Aqaba, Jordan, China and India. This included a project to reshape the course of the Arabian Canal, a \$61b project, which is considered to be the single largest infrastructure project ever in human history, to create several water front cities,

world---class infrastructure and living spaces in excess of 200m sq. m

He is an invited member on the Global Infrastructure Advisory Board of McKinsey and Company, and the Porter Prize Steering Committee in his individual capacity. He has been invited to be a Visiting Professor at Stanford University, a rare honour for a serving civil service official.

Srivatsa writes regularly for Times of India, Wall Street Journal, Business Today, Financial Times, etc and is a prominent commentator on prime time national television on BBC, CNN, Times Now and BBC. He has spoken on the Global TED stage, The Economist India Annual Summit, Harvard Business School Centennial Summit, and World Economic Forum, Davos. He is currently completing his PhD at IIT, Madras.

Srivatsa has sung playback for "Shanghai", a Bollywood production, about an IAS officer's life, whose main protagonist is inspired by his own life and has auditioned for India's Oscar Award winning composer A.R.Rahman for a forthcoming production.

Dr. Kiran Mazumdar Shaw

Chairperson, Karnataka Vision on Biotechnology;
Chairman & Managing Director, Biocon Limited
Biocon Limited

Profile:

A pioneer of the biotechnology industry in India and the head of country's leading biotechnology enterprise, Biocon- Ms. Kiran Mazumdar-Shaw is a highly respected businesswoman. Ms. Shaw, a first generation entrepreneur, has made her country proud with a globally recognized bio-pharma enterprise, which is committed to innovation and affordability to deliver world class therapeutics to the patients worldwide. As the first woman brew master of India, with a pioneering spirit to 'make a difference' she leveraged her learning's of fermentation science to pursue the road less taken and built an innovative bio-pharma company, the first in India. Today, Biocon is India's largest Insulin's Company that pioneered in developing world's only pichia based recombinant human insulin, which is now available in over 30 countries. Under her leadership Biocon has become a well-recognized global brand.

Named among TIME magazine's 100 most influential people in the world, Ms. Mazumdar-Shaw has made affordable innovation the foundation of her business model. Recently, Economic Times placed her at India Inc's top 10 most powerful women CEO for the year 2012 and Nature Biotechnology voted her the most influential Bio-businessperson outside Europe and the USA. Her vision and work for biotechnology have drawn global recognition both for Indian Industry and Biocon. In addition to her formal qualifications, she holds six honorary degrees from renowned international universities and contributes to a variety of organizations. Ms. Shaw is the recipient of several prestigious awards including the Nikkei Asia Prize, 2009 for Regional Growth, Express Pharmaceutical Leadership Summit Award 2009 for Dynamic Entrepreneur, the Economic Times 'Businesswoman of the Year', the 'VeuveClicquot Initiative for Economic Development For Asia, Ernst & Young's Entrepreneur of the Year Award for Life Sciences & Healthcare, 'Technology Pioneer' recognition by World Economic Forum and The Indian Chamber of Commerce Lifetime Achievement Award.
